The information contained in this booklet will be of specific interest to:

- Maintenance Managers
- MRO Specialists
- Electrical Systems Designers
- Process Engineers
- Mould & Temp. Control Manufacturers
- Manufacturing & Controls Engineers
- Automation Integrators
- Welding Technologists
- Robotics Application Specialists
- Equipment/Capital Asset Managers
- Engineering Support Services
- Purchasing Managers
- Service Managers

Your preferred supplier for all new and replacement cable, cord and control panel wiring assembly needs . . .

- Custom Cable Assemblies
- Power Cable Assemblies
- Sensor Cable Assemblies
- Mould Temperature & Thermocouple Cable/Connector Assembly Kits
- Teach & Remote Pendant Cables
- Umbilical Cords/Cables
- Data Cable Assemblies
- Wiring Harnesses & Kits
- Machinery Control Panels & Cable Assemblies

electricomm
ELECTRICOMM TECHNOLOGIES INC.

185 Washburn Drive, Unit A, Kitchener, Ontario, Canada N2R 1S1
Tel. (519) 895-0777 Fax (519) 895-1068 www.electricomm.com

Only the finest components are selected from among the world's leading suppliers.

Assemblies are manufactured by qualified technologists and 100% inspected in Electricomm's technology lab.

Industry Leading Profile . . .

Primary Industries Served

Automotive
Plastics and Rubber
Industrial Robotics & Automation
Original Equipment Manufacturers
Maintenance, Repair & Overhaul (MRO)

Experience & Know-How

Electricomm has served the needs of technology customers since 1988. It operates out of a 10,000 square foot owned facility in Kitchener, Ontario, Canada.

Hallmark Service

The cornerstone of our business is SERVICE. Our growth has been due to repeat business from satisfied accounts in all sectors of industry. We do not believe in high-pressure sales tactics. Instead, we offer a consultative approach to solving our customers' needs.

Value. Commitment

Electricomm's success is predicated on the successes of our customers. Every customer is unique and is treated as such.

We match your expectations to the time and resources required on any assignment you entrust to us in order to deliver real value to you; this means competitive pricing, proven quality in material and workmanship, responsive service and a lasting commitment to standing behind our products.

Single-Source Manufacturing & Service . . .

New Cable Assemblies

All types and applications. Manufactured using only the highest quality components.

Rebuilds & Replacement Capabilities

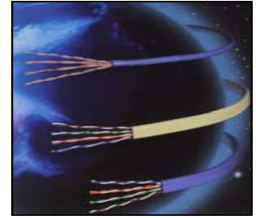

Damaged cables are rebuilt to original specs. Some components are reused, if in serviceable condition. A typical cable assembly rebuild is usually 50-60% of the cost of a new cable, depending on application and types of components required.

Reverse Engineering & Manufacturing

Where spares are not available from an OEM or off-the-shelf, Electricomm technologists provide complete replacement systems or assemblies to suit your specific needs.

Control Panels & Wiring Kits for Machinery & Equipment

These can be manufactured to your exact specifications or Electricomm manufacturing engineering personnel can provide a design.
